PRESENTS

DTK 500 T

PARAMETERS

Screen L*W mm	128*64 LCD
Identification time	<1s
Fingerprint Capacity	3,000
Log Capacity	80,000
Temperature	0c-50C
Power	DC9V
Voltage range	150v~240V
FAR	≤0.0001%
FRR	≤1%
Language	English
Communication Protocols	TCP/IP (Optional), RS232/485, USB, U-disc
Display	Colored TFT
Machine size (L*W*H mm)	178*128*50 mm
Packing (L*W*H cm)	270*180*120
Optional Function	TCP/IP ID or IC card Back-up battery, can work for couple of hours without power

KEY FEATURES

Korean design , Data transfer through Pendrive , TCP/IP as well as USB plug & play connectivity, Battery backup (optional),3,000 users , Very fast Identity system, Scratch less & dust free Sensor , SDK available, Colored display, CE & ROHS certified.

About Digitek System International INC –

DIGITEK is Korea based company & is leader in Biometric solution, In a world of digital revolution, where the technology is reaching out and touching our lives in almost every sphere, DIGITEK has emerged as a leading supplier of end-to-end solutions for the technology platforms of Smart Cards, Biometrics, Radio Frequency Identification and IP Surveillance.
